we do  
mfg polos, outerwear,  
tie dye & more

USA

CANADA

## MISSION STATEMENT:

The main goal of Milltex is to offer more options-better options, fresher options- to customers looking to make a difference in their marketplace. What we endeavor to accomplish here is a company that offers customers a comprehensive selection of quality product to not only help their business stand out, but to successfully communicate the very essence of what their customer is all about. We see many companies that are generic & cookie cutter, and we're here to put a stop to that. We're here to put an end to the monotony, as you should not have to settle for less! WE GOT YOU COVERED!

Milltex has been in the manufacturing business for well over 2 decades. We own factories in Asia, and also have other overseas units working under contract . Milltex has vast experience in custom orders, manufacturing for its USA and Canadian customers. These include , but not limited to, wholesalers , importers, licensing companies and some retailers. Through its updated facilities ,Milltex manufactures and ships embellished value added services regarding tagged, labeled, retail ready goods , delivered directly to customers distribution centers. This supply chain process from procurement of raw materials , production , shipping , Import , transportation , is facilitated under one company umbrella , which makes Milltex efficient , cost effective and reliable.

## CAPABILITY & PRODUCT RANGE:

Milltex produces a multitude of knit products and some wovens as well. Our key expertise lies in Fleece sweatshirts manufacturing, as we proudly call ourselves FLEECE EXPERTS as we can produce light fleece ranging from 6oz, to heavyweight hoodies at 15 oz. weight and everything in between. Plus, our efficiently priced fleece is so attractive we are the first choice for many customers.

Below are some of the styles we mfg. regularly.

- FLEECE HOODIES
- ZIPPER JACKETS
- CREWNECK SWEATSHIRTS
- SWEATPANTS
- ¼ ZIP JACKETS
- BASIC T-SHIRTS
- POLO SHIRTS
- TIE DYE TEES AND HOODIES
- PIGMENT GARMENT DYED HOODIES AND TEES
- 100% POLY PERFORMANCE HOODIES AND TEES
- GENERIC CAMO HOODIES AND TEES
- REALTREE & MOSSY OAK LICENSED CAMO HOODIES & TEES
- FLANNEL WOVEN PAJAMAS
- DENIM AND TWILL PANTS AND JACKETS
- BATH & BEACH TOWELS
- BED SHEETS & HOME TEXTILES

## CAPACITY:

With our own manufacturing plants , plus exclusive contract units , Milltex has a huge manufacturing capacity. Although exact qty depends on the type of style, regarding basic style models , we can easily make 12,000 basic hoodies , or 50,000 tees every day. That's about 20 truckloads every month.

## MOQ:

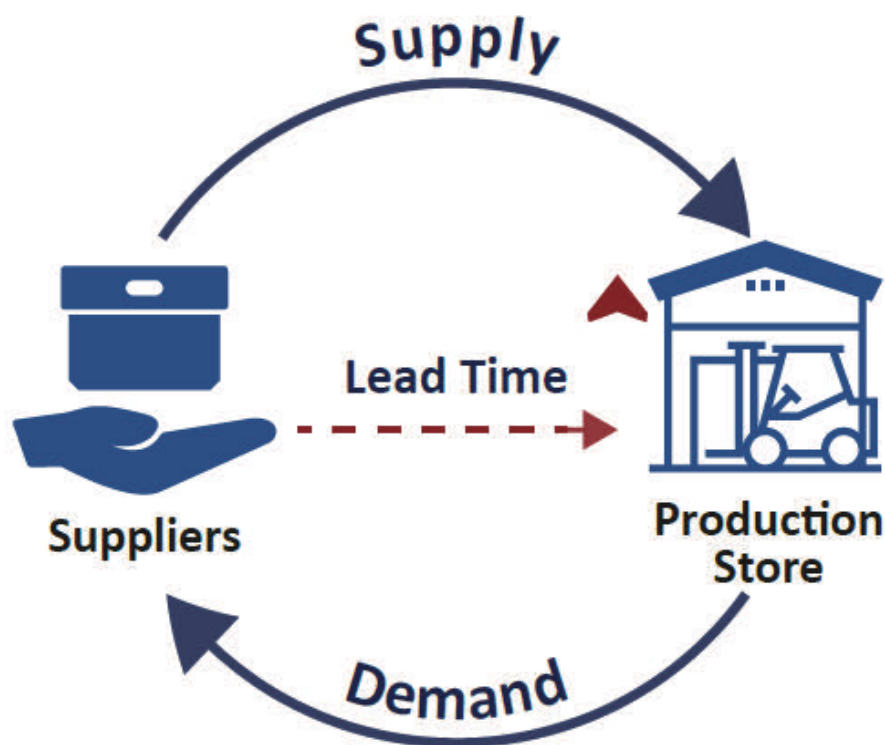

Every custom order requires minimum quantity to make it viable. It varies from our stable of styles and multiple fabric offerings. Although there is no exact science for MOQs , below is a general guideline (somewhat variable);

- MOQ per style : 2500 for hoody, & 7500 for tees
- MOQ per color : 600 per color for hoods , or 1500 per color for tees
- MOQ for all over fabric print : 4,000 yards ( that's 2,000 hoods , or 4,000 tees )
- MOQ per screen print design: 1,000
- MOQ per embroidery / applique design: 144

## LEAD TIMES:

Lead time varies with type of style, and total quantity of order. For average style order, with average order qty ( 10,000 hoodies or 30,000 tees ) , factories require 65~75 days to ship , from PO date. Then it takes 25 days on water to reach NYC or LA port. Then another week to clear customs and transport to final customer destination. So from A to Z , you're looking at approximately 100~110 days from PO date.

## PAYMENT TERMS:

Standard payment terms for all custom orders is 30% deposit , balance 70% before final delivery. For significant order qty , the deposit % can be negotiated, as we will not process custom orders without deposit. The final payment can be offered to customers who can be pre approved by Coface ( AR insurance company).

## EMBELLISHMENT EXPERTISE:

With over 20 years of custom manufacturing , we at Milltex have acquired great expertise in many different embellishments. We can accommodate 12 to 14 color complicated screen prints, as well as navigate different print techniques. These include the following , but not limited to

- Basic Plastisol
